## **What is Nexus Maximus?**

**It is a free event for Cheyney students...free food...free housing...free workshops!**

Participating students will be assigned to teams comprised of 4-6 students from different disciplines. Each team will be assigned a community in Philadelphia in a specific zip code and will be challenged with developing innovation to improve the health of that local community. Cheyney students will be hosted by a Jefferson student on campus for the four-day event.
